PROMOTING EUROPEAN AWARENESS AND KEY COMPETENCES

Project No: 2015 -1- IT02-KA201- 015149
ERASMUS+ KA2 STRATEGIC PARTNERSHIP PROJECT

Co-funded by the
Erasmus+ Programme
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Aims:

- To contribute to the process of modernization and strengthening of the system of education and training, by improving the quality of teaching, through a more strategic and integrated use of the Information and Communication Technologies (ICT), and by further developing the teachers' professional, social and civic education skills;
- To establish a professional network of teachers for training for innovative approaches and techniques and developing competences for working in an Internet-based educational environment;
- To design educational materials for e-learning courses, developed on the basis of digital resources and modern educational technologies.

Cordoba, Spain, 2016

The school of the future – benefits, opportunities and problems in the use of modern educational technologies. Educational and economic aspects of social innovations. Digital inclusion. Problems of cyber bullying.

INSTITUTO
ALCANTARA 90 años

Burgas, Bulgaria, 2017

The use of ICT in the training and professional development of teachers. Developing skills and competences for designing e-learning educational materials and working on the Moodle platform

Intellectual Outputs:

- A Guidebook on e-Learning for Teachers, based on the use of Moodle LMS in education, and integrating online applications in the teaching and learning activities;
- An online platform and e-learning course for implementing the workshop at Burgas Free University and a professional network for teachers, participating in the project activities, for introducing innovative approaches and practices in education;
- “Europe in a Game” – a software product on the basis of online educational games, developed as a teaching resource, which content is closely connected with the ideas of European Awareness;

Total cost: 310 347 Euro
Duration: 3 years – 01.09.2015 – 31.08.2018
